

HD News Woodbury, New York

Project: High Definition Direct-by-Satellite Origination Facility
Contract Value: \$ 8,000,000.00

Special Points of Interest

- *HD News is the only national 24/7 high definition news channel*
- *HD News and other VOOM programming is currently available on Echostar.*

Diversified Systems was contracted for the design and implementation of HD News. HD News can be found on Echostar direct-by-satellite service, and the only service dedicated to multiple high-definition channels.

The systems that were installed included an HD Master Control, HD Edit Suites, HD Production Control and Studio and HD Electronic News Gathering. Diversified Systems was contracted to procure all of the equipment, and provide all of the engineering design, documentation and

integration required to build the digital server based newsroom system on a fast track schedule.

HD News is the only 24/7 national news source in high definition. HD News offers news headlines, sports highlights, in-depth features and national weather reports supported by 5 news bureaus across the nation.
